Cost:
Free!

How would YOU design a more equitable Richmond?

This one-of-a-kind FREE event, DesignRVA, is a hands-on community day where children and their families can imagine a neighborhood where they live, learn, work, and play.

Children and families will engage with volunteers from community-based organizations and design professions like architecture, engineering, urban planning, and construction to build a their own neighborhood!

Children will add their creation to a neighborhood map that will evolve and grow throughout the day. Attendees will also receive a stamped DesignRVA "passport" as a unique souvenir.

Join us in creating a more equitably-built environment and community! Food trucks, entertainment, and a kid zone are also part of the day.

Questions? Connect with the Storefront team at hello@storefrontrichmond.org.
